The Bad Meeting Habit

Meetings are how we do business in most large organizations. Groups of people spending millions of days every year talking & talking with little getting accomplished. Everyone complains about meetings but no one has come up with effective solutions. Until now.

We hate bad meetings and it's time to do something about it!

We believe that to prosper in today's VUCA World (Volatile, Uncertain, Chaotic, Ambiguous), we must revolutionize how we do business.

Escape the Bad Meeting Downward Spiral

Bad meetings have a devastating impact on people and organizations...

- ✓ Perpetuating command & control (managers call and chair most meetings)
- ✓ Reinforcing the worst behaviour (interrupting, zoning out, going in circles, fighting)
- ✓ Creating frustration & resignation (people wondering how they will ever get their real work done)
- ✓ Blocking progress on every front

Revolutionize your Meetings

The secret is ... don't just clean up bad meetings. Replace them with new methods specifically designed for collaborative work on business ideas, solutions and coordinated actions. When you do this, you harness the power of groups while strengthening individual accountability.

Meetings are a key leverage point for change in any organization. The right conversations with the right people at the right time can shift culture, reduce risk and improve productivity ...
